SEAKEEPER DEMONSTRATION TOUR CONTINUES IN FLORIDA

When it comes to the power of Seakeeper Gyro Stabilization Systems, feeling is believing. That's why Seakeeper is inviting boat owners, builders and members of the media to personally experience the difference. The company's 43' Viking Demo Boat, featuring a state-of-the-art Seakeeper M7000 Gyro, will be making stops in Florida over the next few months.

Beginning at the Ft. Lauderdale Marina, Seakeeper's Demo Boat will be available starting January 23 to try out firsthand. Then, it travels to Riviera Beach, Florida for the invitation-only Viking VIP Miami Boat Show Preview event. Public demonstrations will take place on January 28 and 31 at the International Marina.

The Seakeeper Demo Boat will arrive in Miami in time for the Miami International Boat Show, February 11-15. The craft will be located in slip B28 at the Miami Beach Marina. It will remain in Miami for demos until February 17.

Interested parties should contact Seakeeper inside sales coordinator Brook Stevens at 410-326-1590 or bstevens@seakeeper.com to schedule a free Demo Boat voyage or for more information.

Highly effective over a range of conditions, Seakeeper Gyros produce a powerful righting force that virtually eliminates boat rock and roll. To see it in action, visit www.seakeeper.com/products_video.php.
