

PURPOSE

Provide Information and clarification for display software revision releases and compatibility with ECU software versions.

DESCRIPTION

Seakeeper current released versions of display software for the SK-Series models' and the corresponding ECU compatible software versions and display types.

Use the below table to reference the correct ECU and Display software version compatibility.

ECU VERSION	DISPLAY VERSION	DISPLAY TYPE
2.XX	4.03	3.5" display only
3.XX	5.00	3.5" display only
4.XX*	6.06	3.5" display only
10.XX	6.06 7.40.0.1951	3.5" display only 5" display only

*Including M-Series units with Seakeeper Series electronics

IMPORTANT! A Seakeeper will show an alarm until all displays connected to a single Seakeeper ECU are loaded with the same compatible display version.

DETAILED INFORMATION

5-INCH DISPLAY VERSION 7.40.0.1951

The 5-inch display software released July 2019 allows integration of the Seakeeper with Simrad MFDs (NSO and NSS models: 19.1; and GO models: 18.3), in addition to Garmin and Raymarine Multi-Function Display products. This release contains all the features included in previous releases.

Reference:

- TB-90478-2 Garmin and Seakeeper Compatibility
- TB-90479-1 Raymarine and Seakeeper Compatibility
- TB-90480-1 Simrad and Seakeeper Compatibility

Features:

- Simrad Support
- Glass Helm Support with Static IP Addressing

Previous Release:

5-INCH DISPLAY VERSION 7.30.3.1821

Features:

- HTML alarm windows and alarm history
- Current Seakeeper serializing format.
- Allows for up to 10 Seakeeper's on one Garmin or Raymarine MFD display running the web app.

3-INCH DISPLAY VERSION 6.06

The 3.5-inch display software release 6.06 allows communications with legacy ECU software version 4.XX, in addition to the current release version of 10.XX. This includes those M-Series models that have the SK-Series electronics upgrade package installed.

Contact your local dealer for support if MFD integration is desired.
